Elaf Abdulrahman AlGhamdi

elaf-alghamdi Ellae90 elaf.alghamdi1@hotmail.com +966549800397 Makkah, Saudi Arabia

Summary

Software Engineering graduate with hands-on experience in full-stack web development using React.js, Node.js, Express.js, and MySQL. Experienced in developing and deploying real-world internal systems, designing role-based dashboards, implementing database-driven features, and building user-centered web applications. Strong foundation in software engineering, database design, and modern web development.

Education

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING
UMM AL-QURA UNIVERSITY
2022 – 2026 | MAKKAH
GPA: 3.94 / 4.00

Professional Experience

King Abdulaziz Hospital Aug 2025 – Nov 2025
Cooperative Training
- Developed and deployed internal web-based systems using Node.js, Express.js, MySQL, HTML, CSS, and JavaScript.
- Designed and implemented role-based features, database-driven functionality, and bilingual Arabic/English interfaces.
- Supported system deployment on the hospital's internal server, enabling staff use in daily operations.
- Contributed to IT support, system troubleshooting, maintenance, and networking tasks.
- Recognized by the hospital administration as one of the top trainees for delivering practical software solutions adopted for internal use.

Banque Saudi Fransi (BSF) Jan 2024 – Dec 2025
Virtual Internship Program
Participated in a comprehensive remote internship focused on banking operations, professional skills, and financial technology, completing certified courses that deepened understanding of banking processes and professional development.

Skills

Core Technologies — Expert
React.js, Node.js, Express.js, MySQL, JavaScript, HTML, CSS

Familiar With — Proficient
Python, Java, Flutter, REST APIs, Git, Database Design

Additional Knowledge — Competent
Machine Learning, Cloud Computing, Networking Basics, IT Support

Soft Skills — Expert
Communication, Teamwork, Problem Solving, Time Management, Working Under Pressure

Courses

The Complete Oracle APEX Fundamentals Course
udemy

Multi AI Agent Systems with crewAI
DeepLearning.AI

Cloud Computing and Architecture
KnowledgeCity

ChatGPT Prompt Engineering for Developers
DeepLearning.AI

User Experience (UX) Basics for Non-Designers
KnowledgeCity

Python Project for Data Engineering
Coursera

Projects

MALFAK System (Graduation project)
React.js, Node.js/Express.js, MySQL
Full-stack tourism platform developed using React.js, Node.js/Express.js, and MySQL, providing ticket booking, package reservations, transportation, hotel services, digital wallet, and AI-powered chatbot functionality.

Quality & Standards Platform
Node.js/Express.js, MySQL, HTML, CSS, JavaScript
System for committees and policy management with multi-level approvals and document control, including AI-powered assistance for drafting and summarizing policies.

Shift Management System
Node.js/Express.js, MySQL, HTML, CSS, JavaScript
Built a role-based shift and attendance system with swap and edit request management.

Hospital Links Portal
Node.js/Express.js, MySQL, HTML, CSS, JavaScript
Developed a role-based internal portal to centralize hospital links and improve access to digital services.

Thokur Mobile Application
Flutter/Dart, REST APIs
A Flutter personal saving tracker for expenses and savings goals.

ML Classifier
Python, Machine Learning
Implemented a supervised classification model with data preprocessing, model training, and performance evaluation.

Activities & Award

2nd Place Winner — Government E-Services Hackathon 2026
Passenger Experience Track | *General Directorate of Passports* Developed and presented an innovative digital solution addressing a real-world passenger experience challenge. Collaborated with a multidisciplinary team to deliver a scalable and technically feasible prototype.

2nd Place Winner in Softiner Competition
Recognized for excellence in web page design, requirements analysis, and user research.

Student Activities Club
Served as a team leader within the Student Activities Club, organizing and contributing to multiple tech events and initiatives, including leading one of the organizing teams for "TechPro AI", a major event centered on artificial intelligence and student innovation.

Languages

Arabic — (Native)

English — (Proficient)
